Saurabh Bharti

Actively searching opportunity as Full Stack developer.
Bangalore Urban

Summary

I started my career In Information Security Domain ,learned a heck about the security fundamentals and different pillars concerned around organizational Information Security.My daily routine as a Security Consultant in Identity and Access Management includes developing workflows for Identity Life-cycle,APIs with the help of Java language using Sailpoint as implementation tool.

My first love was always web development ,the skills I acquired from my college project using PHP. I am taking my interest to another level with new skills in my technology stack en route to become Full stack developer with ReactJs and Python.
